

# AmmiAbba Project

This SRS (Software Requirement Specification) is based on the telephonic conversation with the client. Project will be initiated after the signoff from client based on this SRS.

# User Section

---

1) Homepage as per the design mockup provided by the client.

2) **Scenario I:**

A search form with three input fields. The first field is labeled 'Search' and contains the text 'what do you need'. The second field is labeled 'City :' and contains the text 'Bangalore'. The third field is labeled 'Area' and contains the text 'R T Nagar'.

- (i) User does a search for a service from the main search panel on homepage.
- (ii) Once a search is made he will see a form where he can put his requirement, partly prefilled by the data already provided by him. I.e. City and area. (See the image above)
- (iii) On successful submission of the form following events will happen.
  - 1. Data goes to a database.
  - 2. Customer receives an Email confirmation
  - 3. Admin receives an Email Alert
  - 4. Admin receives an SMS Alert (\* Needs subscription by the client.)

3) **Scenario II:**

- a) User clicks on any of the boxes on the homepage.
- b) He is navigated to next page with the relevant form.
- c) On successful submission of the form following events will happen.
  - 1. Data goes to a database.
  - 2. Customer receives an Email confirmation
  - 3. Admin receives an Email Alert
  - 4. Admin receives an SMS Alert

\* Client will be required to purchase a subscription pack for sending SMS online.

1. Login and Signup functionality
2. Dashboard (Home Screen):
  - a. Admin would see a form with dropdowns to filter down results based on certain criteria
  - b. Option to view all leads for a selected or all categories all at once (or with some limitation like 20 records at a time with page1, page2, page3 type pagination).
  - c. Sort a given set of records by date, city, category etc.
3. Viewing Leads will happen in two steps.
  - a. All Leads for a given category will get displayed on the first screen with “view” and “delete” action items (Fig 2.2). Pagination will appear only for leads more than 20 in a screen. Clicking on “delete” will delete this lead from the database.

- b. Clicking on “view” action will open this particular lead in another page with further, complete information (Fig 2.3).

The screenshot shows a web application window titled "This Lead Info" with a close button (X) in the top right corner. The window displays the following information:

<b>Name</b>	Rahul Mishra
<b>Email</b>	rahul@google.com
<b>Mobile</b>	9545600524
<b>City</b>	Pune
<b>Lead For</b>	Real Estate

Below this information is a section titled "Additional Information" which contains a table:

<b>Property Type :</b>	Independent Flat/apartment		
<b>No of Bedrooms</b>	3		
<b>Minimum Rent</b>	Rs 10,000	<b>Maximum Rent</b>	Rs 30,000

At the bottom left of the window is a "Back" button.
